

**Community Club – Sunday December 7th
10.00-12.00**

Come and join us in the school garden at anytime between 10.00 and 12.00.

This month we will be doing the usual weeding and planting as well as making progress with our composting area. We will also have some seasonal craft activities so that the children can make decorations from materials they forage in the school grounds.

The fire pit will keep us warm and provide us with the usual smores, popcorn and sausages so come along and join in!
